The Aerospace Technological District (DTA), the first in Italy, has been created from the collaboration of 250 companies with high technical and production capacity, 5 universities, 10 research bodies, 3,000 university professors and researchers.

Numbers that make Lazio the leader in Italy and an international pole of attraction, with a turnover of 5 billion Euro, 30,000 employees and 1.1 billion in exports.

**LAZIO, INNOVATION IS TRADITION**

La regione di Roma è leader in Italia per le produzioni cinematografiche. L’aeroporto di Fiumicino, la ferrovia di alta velocità Roma-Firenze e le autostrade che da Roma si dirigono nei centri storici degli Stati Uniti e canali della cultura italiana.

**THE LOGISTIC SYSTEM**

Airports, railways, motorways and main roads built on the tracks of the old Roman Consular roads that spread out from Rome, allowing Lazio to be reached easily and well connected in the Med and with the rest of the world.

Logistically speaking, the three major terminals (Fiumicino, Ciampino and Civitavecchia) transport over 43 million passengers and 20 million tonnes of cargo each year.

**STATE OF THE ART SINCE MEDIEVAL TIMES**

The Lazio university system was founded in 1303, with the establishment of Studium Urbis. The region now has an unprecedented research network in Italy and its 17 universities produce Italian leaders in development and expertise.

- 417 universities
- 48 research bodies
- 28 research laboratories
- 2 technological districts

FROM COLLABORATION BETWEEN BUSINESSES, YOUNG CREATIVE PEOPLE AND RESEARCH, NEW ENTERPRISE ENERGIES AND INNOVATIVE START-UPS ARE BEING BORN.
The Technological District of Biosciences (DTB), which includes biotechnology, pharmaceuticals, medical devices, healthcare IT, wellbeing, life sciences

has been created from technical-scientific collaboration between industry and research:
- 9.5 billion Euro of annual turnover
- 600 multi-national and innovative SMEs
- 20,000 employees;
- 4.7 billion Euro in exports
- 10,000 researchers and specialists
- 26 research bodies (10 public, 10 private and 3 European institutes)

THE TRADITION OF THE LAND

3,438 enterprises
16,626 workers
6.3 billion Euro of annual turnover
More than 500 million Euro in exports

Enterprises and researchers focus on short production to reach the consumer more directly, with much attention paid to food safety, traceability and protection of health rights, preserving the genuine and homemade nature of our agricultural products.

125 agricultural-food products are present at Expo 2015 distinguished by their strong links with culture and tradition in the areas they originate from.

AUTOMOTIVE
- 3,500 COMPANIES
- 22,000 EMPLOYEE

A state-of-the-art industry in both the design, creation, marketing and sales of vehicles.

THE ECONOMY OF THE SEA

From its tradition of shipwrights, Lazio can boast a long nautical history. A culture of the sea that involves nine communities along the 360 km of Lazio coasts and the hinterland, from the fishing industry to ship-building, from the transportation of goods and passengers to catering services, environmental protection and tourism and sports activities, from design to naval engineering.

LAZIO SUSTAINABLE FUTURE

Lazio supports a strategy that enhances the value of creative industries, integrating high technological industries such as aerospace, biosciences and audiovisual with culture, tradition and with the wine and food heritage of the region, to safeguard human health, optimise the territory and the environment and offer opportunities for investments.

THE ECO-SYSTEM OF INNOVATIVE STARTUPS

With 360 innovative startups registered the Region is now in third place in Italy, with a particular growth in the last year thanks to the “StartUp Lazio” programme, that promote innovation in key sectors; creating a positive environment for innovative ideas and processes, also via a network of accelerators, active spaces and incubators. Several of the Lazio startups belong to the DCI (Digital Cinema Initiative) sector.
