

# The ideas acellerator: FROM SCIENTIFIC DIMENSION TO THE ENTERPRENUERIAL DIMENSION

ENTER IN OUR COMMUNITY

[www.clusterchico.eu](http://www.clusterchico.eu)

## The first cluster in the Lazio Region

C.H.I.CO Cluster of Health Innovation and Community is the first Health Cluster created by the enterprises of the Lazio Region belonging to the Life Science sector, with the function of facilitating the transfer of know-how and technologies from the R&D sector to the industrial in order to develop innovative projects in the field of health and well-being.

## The network

Cluster C.H.I.CO connects public health companies, regional universities, research bodies, public and private hospitals SMEs and enterprises in the supply chain belonging to the pharmaceutical, biomedical and chemical sectors. healthcare, ICT, nutraceuticals and digital healthcare. To the present date, CHICO cluster has created synergies and partnerships with over 120 entities.

## Core activities

- provide an inclusive environment that favors the synergy between INDUSTRY and RESEARCH in the field of Life Science, while simultaneously being an opportunity multiplier
- support the development of project partnerships by providing a permanent ecosystem of dialogue on innovation topics
- contributes to promote and stimulate national strategies on innovative approaches in Life Science
- promote the technological innovation of the supply-chain system by supporting the creation of start-ups and spin-offs
- develop international partnerships in the field of technological transfer and industrial and commercial cooperation
- boost Life Science's topics by promoting and disseminate relevant events, seminars and conferences
- C.H.I.CO SYNERGY: networking platform available to all members in order to promote and enhance their innovation projects
- LIFESEEDER: born from the C.H.I.CO Cluster, it is the first equity crowd-funding platform dedicated to the Life Science sector

## C.H.I.CO's mission and objectives

The synergy created among various entities presenting different know-how and skill-sets in various sectors helps to create guidelines for the development of the Life Science field at national and international level, in order to develop groundbreaking projects and activities.
